EIP 2: Irrigation Pump for Endoscopic Procedures

EIP 2 cleans the operating site, leading to improved visibility and optimization of the surgical effects.

- Good visibility of the target tissue
- The electrosurgical effect can therefore be targeted more effectively, be applied with a greater degree of safety and requires less power output
- EIP can be activated during intestinal irrigations either simultaneously or supplementary to diagnosis and therapy

Technical Data

Mains connection	
Power frequency	50 / 60 Hz
Potential equalization connection	yes

Additional product information	
Packaging unit	1 Piece

Standards	
Classification acc. to 93/42 EWG	IIa
Protection category acc. to EN 60 601-1	I
Type acc. to EN 60 601-1	CF
